

## **AI Agents**

## Retail/Online shopping

Allows users to search a product catalogue, purchase and receive recommendations. Provides retail product queries, ordering, order status, and order

cancellation or return.

## Travel

Planning: Recommendations, POI search, and hotel bookings. Flight Management: Simplified booking, geolocation, and rich flight info. Baggage Claims: Creation and status checks for lost/delayed baggage. Car Rentals: New reservations.

Ticket Management: Booking, changes, flight info, and refunds.

## Financial & Payment services

Set up a two-installment payment arrangement or extend a payment due date. Get a replacement card, check the application status, and investigate suspicious charges.
